WELCOME BACK!

The Dr. MLK, Jr. Middle School is back in session! On Thursday, September 7th, we excitedly welcomed back our 6th, 7th, and 8th grade students.

Greetings DMLKMS Community,

Welcome back to a brand-new school year! It's a true pleasure to embark on this journey with each and every one of you. I'd like to emphasize, and for some, reiterate our core focus: the creation of a positive and vibrant school community and academic excellence.

As we set forth on this academic adventure, let's remember that our success will be firmly rooted in our discipline and our unwavering dedication to giving and sustaining effort. Here's to a year of great achievement for all our students, staff, and our wider community!

HAPPY NEW SCHOOL YEAR!

It is important for our middle school students to be practicing social-emotional learning throughout the year to help support them socially, behaviorally, academically, and in preparation for high school.

Skills such as relationship building and self-management skills will help middle schoolers to cope with what can be a difficult time developmentally. Our students may seem confident on the outside to their peers but often they lack confidence. As a teacher create a “Check in” method or incorporate a daily journaling time. Make sure to reiterate that they matter in our school family.
